Private Room Fees Ground Rules

2021

1. PRIVATE ROOMS TECHNICAL BENEFIT

For the past 3 years to recognise the work done by consultants in their private rooms where they may have invested in additional equipment or facilities to provide an enhanced experience to their patients and to avoid an admission into a hospital setting, Irish Life Health introduced a "Private Room Fee" set of codes.

This Private Room Fee was introduced for selected procedures (as outlined below) in Dermatology, Plastic Surgery, Ophthalmology, Chemotherapy and Haematology. The 2020/21 list is now being extended in 2021/22 to include certain procedure for Cardiology, Ear Nose and Throat, General Surgery, Gynaecology, Orthopaedic, Pain Management, Rheumatology, Urology and Vascular Consultants (see below).

The additional code(s) will only be paid where no hospital or other bill are involved/ received and will be paid at 100% (multiple procedures rule does not apply).

The technical charge codes may be claimed in conjunction with the professional fee of a procedure code (which is the same as an in-patient/ day case hospital professional fee rate), only when the consultant has performed the procedure in their own rooms/ suite (based on the consultant decisions regarding appropriateness and safety).

For these selected codes, when the consultant opts to undertake the procedure in the hospital, billing and claim submission remains as per usual claims submission process. Consultants are required to submit their claim form, billing both the procedure code and the appropriate "Private Rooms Technical Fee" code, specific to their discipline.

2. DRUG INFUSION BENEFIT

In the instance that the procedure includes a specified drug, the consultant may make an application (post Covid-19 period), such as in the case of intravitreal injections or a number of infusions, for Irish Life Health to recognise the centre as a recognised centre for such treatments. Thus, subject to contract and agreement, Irish Life Health will reimburse the consultant for the drug at a specified rate, as outlined in the Irish Life Health standardised drug list.

Drugs need to be administered and invoiced in the most efficient manner to eliminate waste, abuse and error. The list is subject to change as and when drug lists, prices and information are modified (in line with the IPHA agreement).

All drugs listed in the procedure codes below will be reimbursed by Irish Life Health. Please contact consultantcontracts@irishlifehealth.ie for a comprehensive copy of the drugs available for reimbursement and the rates thereof.

3. CONDITIONS OF PAYMENT

Procedures where the "Private Rooms Technical Fee" codes may be claimed are outlined below and are subject to change based on further input and feedback from consultants. Please email consultantcontracts@irishlifehealth.ie with any queries and/ or recommendation for review on these codes.

4. PRIVATE ROOMS TECHNICAL FEE CODES

The claiming of benefit will continue on the basis of a fully completed Irish Life Health claim form from the primary treating consultant. Please note, the rules as set out beside each procedure code in the Schedule of Benefits for Professional fees, will apply.
